ABOUT THE WORKSHOP

Machine learning algorithms are an integral part of almost all modern applications. To make the learning process faster and more accurate, you need tools that are flexible and powerful enough to help you build machine learning algorithms quickly and easily. The goal of this Machine Learning Workshop, is to enable the participants to become proficient in developing ML algorithms using Python.

Timings: July 2-3, 2021 9:00 AM - 4:30 PM (5 hours per day)

Resource Persons
The two day workshop sessions will be conducted in collaboration with experts from premier educational institutes and industry.

Who can attend?
Research scholars, faculty and PG students who are interested in implementing ML algorithms for their applications can attend. A working knowledge of Python is a prerequisite.
