GRD Memorial Library

E-content Development Facility at Digital Learning Centre

GRD Memorial Library has the facility to create the e-content using open source softwares such as Xsplit Broadcaster and OBS Studio. Xsplit Broadcaster is a simple yet powerful live streaming and recording software that powers countless live streams and recordings around the world. This tool provides solution for producing and delivering rich video content. This is exclusively used for Recording facility, Lecture Capturing System (LCS). OBS Studio is another tool used for video recording and content creation which is free and open source software for video recording and live streaming.

Software : Xsplit Broadcaster and OBS Studio

Hardware : Web Camera, Head Phone with Mic, Audio Speakers, Computers, Server
