Programme Educational Objectives

PEO 1: To enable students to acquire knowledge, and expertise in Electronic System Design and apply to related fields, thereby attain confidence for professional success in industry, academia and research.

PEO 2: To empower students to demonstrate communication skills, and technical skills to identify, analyse and apply engineering solutions for electronic systems.

PEO 3: To explore engineering solutions with good ethical standards and professional attitude for solving contemporary social and human issues and engage in lifelong learning.
