DEPARTMENT OF ROBOTICS AND AUTOMATION ENGINEERING

PSG COLLEGE OF TECHNOLOGY

PROGRAMME EDUCATIONAL OBJECTIVES

- The program in Robotics and Automation Engineering aims to equip the young minds as proficient engineers with a strong background in Science and Engineering.

- The curriculum encompasses design, development, operations and research which nurture the students in the major areas of Robotics and Automation Engineering.

- The courses imbibe the important attributes of self-learning, teamwork and an appreciation for ethical conduct.

- To expose the budding engineers with the state of art tools and technologies relevant to industrial and societal tasks.
